Reimbursement Form for Law Enforcement and Prosecutors

Stalking in 21st Century

Through this grant there are funds available to reimbursement for travel expenses and other costs that may occur when sending an officer to the training. These funds should be utilized for what your costs are above and beyond your normal staffing costs, to help offset costs that would otherwise prohibit an officer from attending. Essentially, these funds are to assist in defraying the overtime/and back-fill costs you have in sending staff to the training.
